INTRODUCTION

Our project is a movie streaming website that allows user to watch movie and shows free of cost .It has a movie recommendation system that provides suggestions to user based on some dataset such as popular movies,new releases, imd ratings etc with an amazing dark mode feature making our website more attractive and responsive.

Existing work with limitations

In this website we have created a navigation bar that contains

APPLICATION

- User control and freedom
- Solution
- Flexibility
- Match between system and the real world

User control and freedom

User has the ability to exit unwanted actions easily. In the real world, this comes in the form of physical exit signs over an exit door. In the digital world, this comes in many forms. The layout is easy to understand and use. Users are constantaly informed of where they are and whats going on arond them.

Solution

The user has the access to all his favorite movie web series etc at one place which is very easy to access. So this provide solution to all the user who are serching different website and wasting their valuable time.

Flexibility

This website provides the user the flexibility to access their favourite movie or series at anytime and anywhere without wasting their money.

Match between system and the real world

To make user feel familiar with our website the icon and the elements used resemble their real world counterparts.

hardware and software

VISUAL CODE STUDIO	**HTML coding for the page, save the document as a web file, and open it in a browser to make sure it looks like it is supposed to.**
GRAPHICS EDITOR	**For LOGO and illustration work**
FTP Client	**FTP (file transfer protocol) client to transfer HTML files and supporting images and graphics to your web server.**

Cineflix Home Movies Series Popular Dark Mode

Django and buys him because he needs him to find some men he is looking for. After finding them, Django wants to find his wife, Broomhilda, who along with him were sold separately by his former owner for trying to escape. Schultz offers to help him if he chooses to stay with him and be his partner. Eventually they learn that she was sold to a plantation in Mississippi. Knowing they can't just go in and say they want her, they come up with a plan so that the owner will welcome them into his home and they can find a way.
